(so you don't have to implement on your own!)

"MY MARKETING ISN'T WORKING."

Yesterday's marketing doesn't work for today's consumers. Not only will we teach you how to set yourself apart with a unique identity, we will show you how to create and execute on a plan.

"I WANT TO 'SELL' MORE DENTISTRY"

Treatment acceptance is simpler when you have a system to follow. Our method guides patients to make good decisions, leaving you, your team and your patients feeling comfortable and confident.

"I WANT TO UNDERSTAND MY BUSINESS BETTER"

What gets measured gets managed. For this reason a regular look into the numbers is invaluable. We will help you understand your numbers harness the insights to grow your business.

"I WANT TO DO MORE PROFITABLE PROCEDURES"

Specialty procedures become possible and more profitable when you optimize your operating systems. Learn our protocols and start generating more revenue per patient.

I signed on with their coaching program 1 month before I acquired an existing practice. In less than a year they have personally helped the office go from \$78,000/month to averaging \$165,000/month!
Dr. A. Xiang

This is a game changer for my dental practice! Nate and BT are such enthusiastic and intelligent motivators. They have helped me make little changes that have driven huge impact in my practice. One of their systems helped us produce an extra \$85,000 in 3 months!! I feel a renewed passion in building my dream!
Dr. J. Nieva

In just 4 months I had a 200% return with implementing just one thing. I recommend this for anyone whether just starting from scratch for very well-established practice
Dr. S. Shetty

Conversion is a big deal in their program, identifying, communicating and presenting treatment plans to the right patients. Their Future Money concept is also a big aspect of what I use. I 100% recommend their coaching program and they're amazing people!
Dr. G. Grigorian

They have a solution and PROCESS for everything. Implementing their systems allowed me to add two associates and bring more joy into my practice and life.
Dr. K. Patel

I went completely FFS in January 2023 and ended the year with 22.3% growth in my practice!
Dr. I. Castro
